Gas Logs Measurement Form

Gas Type:

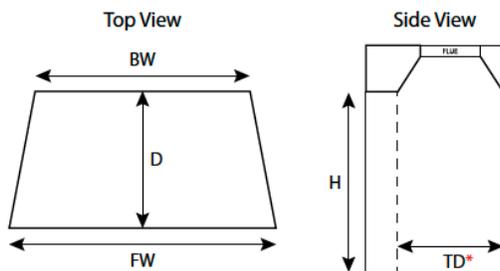

Propane Natural Gas None Yet

How far is the gas line to your fireplace?

In the firebox I don't know
 Less than 10 feet More than 10 feet

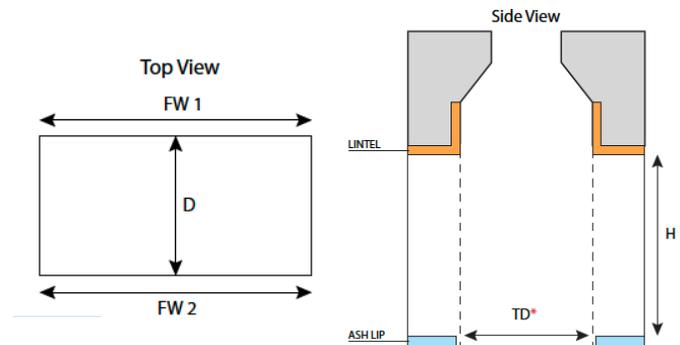

Choose the fireplace your currently have:

Front View Fireplace

FW (Front Width): _____
BW (Back Width): _____
D (Depth): _____
H (Height): _____
TD (True Depth*): _____

See-Through / Double-Sided Fireplace

FW 1 (Front Width): _____
FW 2 (Front Width): _____
BW (Back Width): _____
D (Depth): _____
H (Height): _____
TD (True Depth*): _____

*TRUE DEPTH should be measured by dropping a plumb bob or yard stick from behind the lintel straight down to the floor. Measure from point on floor to back wall of firebox. Burner must be underneath the open flue to prevent chance of spilling.
